

## Physiological Admissibility

**Materials:**

- SIMONA® PP-DWU-B**
- SIMONA® PP-DWST / PP-DWU / PP-DWU AlphaPlus**
- SIMONA® PP white**
- SIMONA® PP-C**
- SIMONA® PP Pipes and PP Fittings**

According to the recommendation VII of the "Federal Institute for Risk Evaluation" (BfR, ex BgVV) the above mentioned SIMONA® materials are permitted for the production of consumer goods in the sense of § 2, paragraph 6, number 1 of the Law Code concerning food, consumer goods and feed (LFGB, in the version of the announcement of 26 April, 2006, Federal Law Gazette I, page 945).

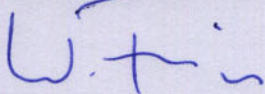

All monomers and additives used are listed in the European Directive 2002/72/EC and amendments.

The above mentioned SIMONA® materials are made from raw materials which, in the USA, correspond to the requirements of the "Food and Drug Administration" (Code of Federal Regulations, title 21, chapter 1, part 177.1520) for the contact with foodstuff.

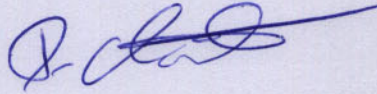

The above mentioned SIMONA® materials do not provide a breeding ground for microorganisms and are not attacked by such.
